Subject:	News Release
Product:	ProEstimate Heavy
Version:	8.10
Date Posted:	04/08/2010

Oman Systems announces the latest release of **ProEstimate Heavy** (Version 8.10). This release adds new features designed for general contractors by enhancing the sub pricing system. There are a number of enhancements including: (1) adding Scope Sheets, (2) Increasing the number of quotes, (3) Added the ability to import data from a spreadsheet into a task and (4) added the ability to use task level pricing sheets. Listed below is more information about these changes.

- (1) **Scope Sheets** - The ability to add a "scope sheet" has been added to the system. Users can create a database of scope sheets and then attach a selected scope sheet to a pricing sheet. As prices are received, the user can select the items that each sub has included.
- (2) **Number of Quotes** – The number of quotes received in a pricing sheet has been increased from 12 to 30. With general contractors receiving more and more quotes for specific items of work, the need to increase the maximum number of quotes was needed.
- (3) **Spreadsheet Import** – The ability to import task and material data has been added to the system. This allows the user to take a spreadsheet from a sub or supplier and import the data directly into a task. In addition, there is a new "drag and drop" feature within the pricing sheet, If you receive a quote that was created within the pricing system, you can simply drag and drop the file into the pricing sheet and it will be imported into the current pricing sheet.
- (4) **Task Level Pricing Sheets** – The ability to set up pricing sheets for task level items greatly increases the flexibility of the pricing sheet system. No longer are pricing sheets restricted to taking quotes on pay items, you can now take quotes at the task level.

The experience working with general contractors has allowed **ProEstimate Heavy** to meet the needs of a broader range of contractor types. If you have any questions about any of these new features, please feel free to contact us at 800-541-0803 or visit our website at www.OmanCo.com.
