USERS GROUP TRAINING SESSION

Research shows inadequate training as the primary reason for computer software not being utilized to its potential. In many cases the lack of employee training decreases productivity and drives up cost to a company. Oman Systems, Inc. will be providing training to assist you in maximizing the potential of ProEstimate Heavy by increasing your knowledge and understanding of the program.

If you are interested in attending this training seminar, please return this form one week prior to the class date. You can fax your confirmation to 615-385-2507 Attention: David Bullington or e-mail to David@OmanCo.com.
